PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and supporting web applications using **Next.js**, **Laravel**, **TypeScript**, **Tailwind CSS**, and **PostgreSQL**. Contributed to **production environments** and **project-based systems** using modern frontend and backend practices, relational databases, and API-driven architectures. Adaptable to new technologies and development environments, with a strong ability to ramp up quickly on unfamiliar stacks as project needs require. Seeking a **long-term role** within a team that values **stability**, **mentorship**, and **sustainable technical growth**.

TECHNICAL SKILLS

Frontend:	Next.js (React), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Livewire, shadcn/ui
Backend:	Laravel, Express.js, PHP, Node.js
Databases:	PostgreSQL, SQLite
ORM & Data Modeling:	Prisma, Drizzle ORM
Authentication:	NextAuth.js, Laravel Auth
Cloud & Deployment:	Vercel, Supabase, Neon (PostgreSQL), Hostinger
Tools:	Git, GitHub, WordPress

PROFESSIONAL EXPERIENCE

Systems Engineer II

La Rose Noire Philippines | August 2025 - October 2025

- Developed internal web systems using PHP, Tailwind CSS, and SQL
 - Provided application-level production support and issue resolution
 - Collaborated with operational teams to improve system workflows
- Role concluded due to company-wide restructuring*

Junior Developer

Citro Group, Inc. | Aug 2023 – Nov 2023

- Rapidly onboarded to Next.js, TypeScript, Tailwind CSS, Prisma, and PostgreSQL
 - Contributed to feature development and maintenance of production web applications
 - Implemented frontend components and supported backend integration
 - Took ownership of assigned modules and client deliverables
- Role concluded due to medical leave (fully resolved)*

Systems Analyst

STRIDE Consulting Inc. | Oct 2020 – Jul 2023

- Delivered technical consulting solutions for government and infrastructure clients.

Key Engagements:

City Government of Puerto Princesa | Information Technology Officer I

- Built interactive dashboards using R Shiny with mapping and analytics
- Optimized secure database integrations

University of the Philippines – NCPAG | Computer Programmer II

- Developed web interfaces using HTML, CSS, JavaScript, and GraphQL
- Enabled structured data submission and backend connectivity

Manila Water Co., Inc. | Data Analyst

- Automated reporting pipelines using R Markdown
- Supported simulation-based data processing workflows
- Conducted field surveys

PROJECT BASED & VOLUNTEER DEVELOPMENT

Web Developer

Digital Blast | November 2025 – January 2026

- Developed and launched official WordPress business website
- Implemented responsive UI aligned with brand identity
- Optimized performance and applied on-page SEO strategies

Full Stack Developer (Volunteer)

Hills of Glory - Mabalacat | May 2025 – January 2026

- Built and maintained a Laravel-based management system
 - Developed admin dashboards, workflows, and database structures
 - Collaborated with stakeholders to define system requirements
- (Project is currently paused, planned future migration to a Next.js-based architecture)*
-

INTERNSHIPS

Network Administration Intern

STRIDE Consulting Inc. | November 2019 – March 2020

- Assisted in network configuration and device deployment
- Installed hardware components and assembled electronic parts
- Developed Android application front-end components
- Conducted field surveys and ensured operational device safety
- Monitored project operations and system reliability

Computer Troubleshooting Intern

STRIDE Consulting Inc. | April 2017 – May 2017

- Programmed and edited applications using .NET
- Installed devices in public vehicles for survey projects
- Encoded and organized technical data
- Maintained device inventory and ensured operational integrity

IT Office Intern

STRIDE Consulting Inc. | April 2016 – May 2016

- Programmed Arduino and STM microcontroller boards
 - Tested embedded system components
 - Assembled hardware components through soldering
 - Prepared technical documentation and presentations
-

EDUCATION

Polytechnic University of the Philippines

Diploma in Computer Engineering Technology | June 2015 - April 2023

TECHNOLOGY EXPANSION (IN PROGRESS)

- Learning Python and C# (.NET ecosystem)
- Exploring React Native for mobile development
