PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and supporting web applications using **Next.js**, **Laravel**, **TypeScript**, **Tailwind CSS**, **Prisma**, and **PostgreSQL**. Has contributed to **production environments** and delivered project-based systems using modern frontend and backend practices, relational databases, and API-driven architectures. Adaptable to new technologies and development environments, with experience ramping up on unfamiliar stacks as project needs require. Seeking a **long-term role** within a team that values **stability**, **mentorship**, and **sustainable technical growth**.

TECHNICAL SKILLS

Web Fundamentals:	HTML5, CSS3, JavaScript (ES6+)
Languages:	TypeScript, PHP, SQL
Frameworks & Libraries:	Next.js (React), Express.js, Laravel, Livewire, Tailwind CSS
UI & Components:	shadcn/ui, Flux
Authentication:	Laravel Auth, NextAuth.js
ORM & Data Modeling:	Prisma, Drizzle ORM
Databases:	PostgreSQL, SQLite
Cloud:	Neon (PostgreSQL), Supabase
Tools & Platforms:	Git, GitHub, WordPress, Vercel, Hostinger

PROFESSIONAL EXPERIENCE

Systems Engineer II

La Rose Noire Philippines | August 2025 - October 2025

- Developed internal web systems supporting company operations using PHP, Tailwind CSS, and SQL
- Provided application-level support and collaborated with internal teams to troubleshoot and resolve issues
- Contributed to system improvements aligned with operational requirements

Role concluded due to company-wide restructuring affecting probationary employees

Junior Developer

Citro Group, Inc. | Aug 2023 – Nov 2023

- Rapidly onboarded to a modern web stack including Next.js, TypeScript, Tailwind CSS, Prisma, and PostgreSQL
- Contributed to feature development and maintenance of active web applications
- Took ownership of assigned components and supported ongoing client deliverables

Role concluded due to medical leave following a serious health condition (now fully resolved)

Systems Analyst

STRIDE Consulting Inc. | Oct 2020 – Jul 2023

- Delivered data-driven and web-based solutions for government and infrastructure clients under consulting engagements.

Selected Project Engagements:

City Government of Puerto Princesa | Information Technology Officer I

- Built a dynamic dashboard using R Shiny with interactive mapping and reporting capabilities
- Integrated secure database connections and optimized system performance

University of the Philippines – NCPAG | Computer Programmer II

- Developed an interactive web interface using HTML, CSS, JavaScript, and GraphQL
- Enabled structured data submission and backend integration

Manila Water Co., Inc. | Data Analyst

- Developed automated reporting systems using R Markdown
- Supported simulation-based analysis and data processing workflows

PROJECT BASED & VOLUNTEER DEVELOPMENT

Web Developer

Digital Blast | November 2025 – January 2026

- Developed and launched the official business website for Digital Blast using WordPress, hosted on Hostinger
- Implemented a clean, responsive layout aligned with brand identity and user experience best practices
- Optimized website performance and page load speed for production readiness
- Applied on-page SEO techniques to improve search visibility and discoverability

Full Stack Developer (Volunteer)

Hills of Glory - Mabalacat | May 2025 – January 2026

- Developed and maintained a custom Laravel-based management system to support church operations and member tracking
 - Implemented core features including data management, monitoring workflows, and administrative tools
 - Built front-end and back-end components using Laravel, Livewire, Tailwind CSS, and SQL
 - Collaborated directly with church leadership to gather requirements and refine functionality
- (Project is currently paused, with plans to transition the system to a Next.js-based stack for future continuation)*

EDUCATION

Polytechnic University of the Philippines

Diploma in Computer Engineering Technology | June 2015 - April 2023

TECHNOLOGY EXPANSION (IN PROGRESS)

- Actively learning Python and the .NET ecosystem (C#) with a focus on application development fundamentals
- Exploring React Native and modern mobile development as a future extension of existing React experience
