

Joriel Brian Sudario

Software Engineer | Full-Stack & Data Systems

Mabalacat City, Pampanga | jorielsudario@gmail.com | +63 955 224 2970

Portfolio: <https://jorielbriansudario.vercel.app/> | **GitHub:** <https://github.com/JorielBrian>

LinkedIn: <https://www.linkedin.com/in/joriel-brian-sudario-b14728265/>

PROFESSIONAL SUMMARY

Software Engineer with production experience building and maintaining **full-stack web applications**, **internal systems**, and **data-driven systems** across **frontend**, **backend**, and **data layers**. Proven ability to design scalable systems, optimize data processes, and translate business requirements into technical solutions.

Expanding into data engineering with hands-on experience in **SQL**, **PostgreSQL**, and **Python-based** pipelines, applying modern data architecture concepts such as **Medallion Architecture**. Combines strong application development expertise with growing capabilities in data platforms and analytics-driven systems.

TECHNICAL SKILLS

Data Engineering: Python, SQL, PostgreSQL, Databricks, Apache Iceberg, Trino, DBT, Dagster

Data Architecture: Medallion Architecture, Data Modeling, ETL/ELT Pipelines

DevOps & DataOps: Docker, OKD (Kubernetes), Tekton, ArgoCD, Azure DevOps, Forgejo

Full-Stack Development: Next.js (React), TypeScript, JavaScript (ES6+), Tailwind CSS, shadcn/ui

Backend & APIs: Express.js, NestJS, REST APIs, Authentication & Authorization (RBAC)

Database & ORM: PostgreSQL (Neon), Drizzle ORM

Tools & Environment: Git, GitHub, Vercel, WSL2 (Ubuntu), Claude Code AI

Additional: PHP (Laravel), Apache Ranger

PROFESSIONAL EXPERIENCE

SWAK BPO Corp. | *April 2026 – Present*

Junior Data Engineer | *July 2026 – Present*

- Design and optimize **SQL** models and transformations in **PostgreSQL** for analytics and reporting
- Build and orchestrate data pipelines using **Python**, **Databricks**, and **Dagster** within a **Medallion Architecture**
- Work with **Apache Iceberg** and **Trino** for scalable data processing and querying
- Implement structured data transformations using **DBT** across data layers
- Apply **DataOps** practices using **Docker**, **OKD**, **Tekton**, **ArgoCD**, and **Azure DevOps** for pipeline deployment and management

Junior Full-Stack Developer | *April 2026 – June 2026*

- Developed backend services and internal tools using **Express.js**, **Drizzle ORM**, and **PostgreSQL**
- Built full-stack applications with **Next.js** and **NestJS** to improve internal workflows
- Migrated selected internal applications to a **Laravel + React stack**, improving maintainability

- Collaborated with stakeholders to deliver scalable technical solutions

La Rose Noire Philippines | August 2025 – October 2025

Systems Engineer II

- Developed and maintained internal systems using **PHP**, **Tailwind CSS**, and **SQL**, supporting business operations
- Diagnosed and resolved production issues, improving system reliability and stability
- Enhanced operational workflows through system improvements and process optimization
- *Role concluded due to company-wide restructuring*

Citrofit Group, Inc. | August 2023 – November 2023

Junior Developer

- Contributed to production applications using **Next.js**, **TypeScript**, **Tailwind CSS**, and **PostgreSQL**
- Built reusable frontend components and supported backend integrations
- Delivered functional modules in a client-driven development environment
- Role concluded due to medical leave (fully resolved)

STRIDE Consulting Inc. | October 2020 – July 2023

Systems Analyst

- Delivered consulting solutions for government and enterprise clients, focusing on system design and data workflows
- Built interactive dashboards using **R Shiny** with mapping and analytics for public sector reporting
- Developed web interfaces and data submission systems using **HTML**, **CSS**, **JavaScript**, and **GraphQL**
- Automated reporting pipelines and data processing workflows using **R** and **R Markdown**
- Translated business requirements into technical implementations and data-driven solutions

PROJECTS & VOLUNTEER WORK

Hills of Glory - Mabalacat | May 2025 – Present

Full-Stack Developer (Volunteer)

- Design and develop a full-stack system for administrative workflows using **Next.js**, **NestJS**, and **PostgreSQL** with **Drizzle ORM**
- Build dashboards, backend logic, and role-based access control (**RBAC**) with **Auth.js** to support secure operations
- Deploy and manage the application on **Vercel** with **Neon PostgreSQL**
- Collaborate with stakeholders to refine requirements and align system features with organizational needs

Digital Blast | November 2025 – February 2026

Web Developer (Project-Based)

- Developed and launched the official **WordPress** business website
- Implemented responsive UI aligned with brand identity
- Optimized performance and applied on-page **SEO** strategies

INTERNSHIPS

STRIDE Consulting Inc.

Network Administration Intern | November 2019 – March 2020

- Assisted in network configuration, deployment, and maintenance of devices for field operations
- Supported system connectivity and reliability for distributed data collection environments
- Collaborated with technical teams to ensure stable infrastructure for operational systems

Computer Troubleshooting Intern | April 2017 – May 2017

- Developed and modified application components using **.NET** technologies
- Supported deployment of device-based systems used in field data collection projects
- Managed technical data encoding and ensured accuracy of collected datasets

IT Office Intern | April 2016 – May 2016

- Developed and tested embedded system components using microcontrollers (e.g., **Arduino**, **STM**-based platforms)
- Assisted in hardware-software integration for device-driven data collection and processing workflows
- Assembled and validated electronic components to support system functionality and reliability
- Prepared technical documentation, reports, and system presentations for internal use

EDUCATION

Polytechnic University of the Philippines

Diploma in Computer Engineering Technology | June 2015 – April 2023
